## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, 23-31, drawn to a sample collection device for collecting a sample comprising a base sheet, a cover sheet and a backing sheet.

Group II, claim(s) 15-22, 32, drawn to a method of collecting and storing samples.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons.

According to PCT Rule 13.2, unity of invention exists only when there is a shared same or corresponding special technical feature is a contribution over the prior art. The inventions listed in Group I do not relate to a single general inventive concept because the lack of the same or corresponding special technical feature. The technical feature of Group I is "a device comprising a base, a cover and a backing sheet" which is shown by JP1166929, for example, to lack novelty or inventive step and does not make it a contribution over the prior art. Moreover 3,965,888 teaches a sample collection device which meets the limitations of the instant claims. Thus, the claims lack a contribution over the prior art.

3. A telephone call was made to Aries Taylor on August 12, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant requested the restriction in writing.

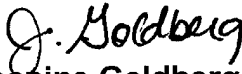

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
